

Senior Portraits

Senior portraits are some of the most important portraits you will ever have taken. These portraits are to capture your youth as you begin to enter adulthood.

Every student has different hobbies, interest and personalities. My job as a photographer is to capture just that.

Rather than force you to strike a pose that makes you feel uncomfortable, we try to allow you to pose naturally with slight adjustments.

Here at Snyder Photography, we are all about giving you great portraits for a great price.

Some portrait studios will offer a low sessions fee and not list their print prices. This lures you in, and you are stuck paying high prices for your photos.

Snyder Photography does not think that is fair. We post both our session fees and print prices, up front. And if there is anything you are unsure of, we will quote you a price, before you schedule with us.

Please look through this brochure, and browse our website. Then if you have any questions, contact me as soon as possible!
